Layout

Spacious house under construction, located at the beginning of Rincon. The house has a built-up area of over 3,607 sq.ft (335 m2) and is wind- and waterproof. A lot of material for finishing is already present. The materials from Brazil, such as porcelain floor tiles and large kitchen, are already ready for further processing.

You enter the house through the covered L-shaped porch. The first thing you notice is the loft with a view of the 2nd floor. The hall flows into the living room with sliding doors to the backyard. The kitchen is also located at the rear with a separate utility room. This spacious utility room has an outside door to the covered porch.

On the ground floor there are two bedrooms, on either side of the living room. The primary bedroom is very spacious and could even be used as an apartment. This part of the house also has a walk-in closet, bathroom and a storage room, hobby room or office (with private entrance). The other bedroom also has its own bathroom. There is also a guest toilet on the ground floor.

On the upper floor there are a 5 more bedrooms, 2 on the left and 3 on the right. The design is such that each bedroom can have its own bathroom. Above the living room is a large U-shaped roof terrace with a view of a Rincon soccerfield on one side and a view of the rural area with the east coast in the distance on the other. Together they provide 1,517 sq.ft (141 m2) of great outdoor living.

The house is built on a plot of 8,031 sq.ft (746 m2) of leasehold land and is located on the outskirts of Rincon. In addition to the exceptionally spacious house, there is also plenty of outdoor living space.
